

## Accept purchase orders online from anywhere, anytime.

Are you a distributor or manufacturer receiving phone, fax or email orders? Are your orders being entered manually? Is your customer service and sales team busy doing manual data entry rather than paying attention to selling and customer service? Is order visibility an issue and are you spending time fixing data entry errors? Are you reworking invoices to match proof of delivery?

If so, NetSymm is the right fit for your business.

## Benefits

1. **Increase orders and scale your business.** Orders are automated and much simpler and faster to create, so you can process more orders daily.
2. **Speed up order processing and fulfillment.** Orders and synced to your ERP in real-time, order fulfillment is immediate, and error rates go down.
3. **Reduce order processing costs.** Costs related to phone, fax, email and paper orders are reduced.
4. **Increase customer retention.** Faster, more efficient, and secure cloud-based selling process.
5. **Convenient dashboards and reports.** Customizable dashboards for customer intelligence and reporting to measure business performance.
